This gorgeous home with views of not only Lake Helena but beautiful mountain ranges. Built in 2005 was designed to take advantage of the views with large windows. Main level Master Suite with Master Bath and large walk-in closet. The property is listed as a 5 bedroom but there are additional rooms for an office...a work-out room or storage. A huge basement with plumbing for a second kitchen/bar area. Walk out from the lower level to enjoy the 5 acres and views. A three car garage to park your vehicles and certainly room to park your boat/rv outside (or build a shop). Come check out the place that may be your next home.
